

Ring Sizer

120mm

How to use the ring sizer:

- Print out this document, making sure you **don't** select the "fit to page" option.
- Measure the bar below to ensure it is 120mm in length.
- Place a ring, the same size as the one required over each size until a circle matches the interior diameter of the ring.
- This is the size of ring required.
- Rings with a wider band need to be a larger size to fit the same finger, so please use a ring of a similar width to the one you wish to order if possible.
- This ring measuring gauge is intended as a guide only.
- If you require further advice on ring sizes, please feel free to contact us.
- As standard we stock most our ladies rings in sizes J-R however if you require a ring outside of this size range, please contact us. Depending on the style of the ring, we are often able to order or alter rings to the desired size
